May 30, 2026

Setup

This dashboard renders the Malaysia URL manifest produced by `R/pull_malaysia.R`. Each row is one PDF target. Rows are grouped by `access_status`:

- **auto** — direct PDF URL verified; the deployment pipeline fetches automatically.
- **manual_pending** — human action required. Click the URL, navigate to the PDF, save it to the displayed local path. After re-running `tar_make(country_urls)`, the row flips to **manual_ready**.
- **manual_ready** — file present at `local_path`; pipeline ingests it on the next text-extraction step.

Overview

Malaysia URL manifest — overview

metric	value
Total Targets	154
Distinct Series	5
Distinct Years	43
Year Min	1980
Year Max	2022
Auto	2

Malaysia URL manifest — overview

metric	value
Manual Ready	97
Manual Pending	55

Status counts by document series

body	manual_pending	manual_ready	auto
Bank Negara Malaysia Annual Report	17	26	0
Budget Speech / Ucapan Bajet	19	24	0
Crisis booklet / fiscal stimulus package	0	6	2
Economic Report / Tinjauan Ekonomi	15	28	0
Five-Year Malaysia Plan / Mid-Term Review	4	13	0

Auto — verified direct PDF URLs

These will be fetched automatically by the deployment pipeline. No human action required.

Auto-fetch URLs (verified direct PDFs)

Year	Series	Package (link)	Source	Notes
2020	Crisis booklet / fiscal stimulus pack- age	MY_PENJANA2020	penjana.treasury.gov.my	Direct PDF verified.

Auto-fetch URLs (verified direct PDFs)

Year	Series	Package (link)	Source	Notes
	Crisis booklet /			
2020	fiscal stim- ulus pack- age	MY_PRIHATIN-2020v.my	https://www.mampr.gov.my	Direct PDF verified.

Manual ready — files dropped, awaiting ex- traction

Rows where the human has already placed a PDF at `local_path`.
The pipeline will extract these on the next text-extraction step.

Manual pending — human download required

This is the work queue. For each row:

1. Click the **URL** column to open the page in a browser.
2. Navigate to the PDF if the URL is a landing page (some archives require year selection or anti-bot click-through).
3. Save the PDF to the displayed **Local path**. Create subdirectories as needed.
4. Re-render this notebook (or re-run `tar_make(country_urls)`) to confirm the row flipped to `manual_ready`.
